

Annexure II

Present Status of Household Electrification Level as on 31st March 2007:

With the unbundling of MP Power Sector, rural electrification is being taken up by the respective discoms and accordingly Rural Electrification Plan for the state is made. Present status of electrified villages and rural households in the state based on data collected from the Discoms is presented in Annexure for the convenience of users.

Current Status of Village Electrification as on 31st March 2007: Discom wise:

Discom	Central	East	West	State
Particulars				
Total number of inhabited villages as per 2001 Census	15745	24155	12219	52119
Number of villages electrified	5282	18116	9731	33129
Percent of electrified villages	33.55	75	79.64	63.56
Number of villages to be electrified through grid connectivity	10172	5375	2317	17864
Number of villages to be electrified through other solutions (Non-grid)	277	583	134	994
Number of Deserted/submerged Villages	14	81	37	132
Total un electrified villages	10463	6039	2488	18990
Total un electrified villages excluding Deserted/submerged Villages	10449	5958	2451	18858
Percent of un electrified villages excluding Deserted/submerged Villages	66.36	24.67	20.06	36.18
